EDUCATION

PSNA College of engineering and technology

Bachelor of computer science Engineering
2021-2025(8.51 Cgpa upto 5th semester)

Ramsun's Matric.Hr.Sec.School

HSC(2019-2021)
Percentage:92.296%

Ramsun's Matric.Hr.Sec.School

SSLC(2017-2019)
Percentage:90.20

SKILLS

- HTML,CSS, JavaScript
- Java,Python
- SQL
- React js,Node js
- Leadership
- Communication
- Multitasking
- Problem-solving

CERTIFICATIONS

- Oracle Cloud infrastructure Foundation (Oracle Academy)
- SQL (Skillrack)
- Python(Hackerrank)
- Java(Hackerrank)
- Microsoft Azure AI (ICT ACADEMY)

CAREER OBJECTIVE

As a Computer Science Engineer, I aim to leverage my full-stack expertise in web interface design, database management, and issue resolution to develop innovative, user-centric applications. I seek to collaborate with dynamic teams to enhance user experiences and drive business success."

PROJECTS

Object Detection

- Utilized Convolutional Neural Networks (CNNs)to process and analyze visual data for enhanced detection accuracy.
- Implemented Faster R-CNN models to integrate region proposal and detection efficiently.
- Applied SSD (Single Shot MultiBox Detector) for single-step detection, balancing speed and accuracy.
- Developed real-time detection systems using YOLO (You Only Look Once)for fast and accurate object detection.

Sign language

- Employed a pre-trained Convolutional Neural Network (CNN) for accurate and efficient sign language recognition.
- Promoted inclusivity and accessibility by enabling real-time translation of sign language into text.
- Integrated the solution into a user-friendly web application, enhancing communication for the deaf and hard-of-hearing community.

INTERNSHIP

OCTANET Pvt.limited

- I successfully completed a one-month internship in the field of web development at OctaNet Services Pvt Ltd.
- I gained valuable experience in web development and honing my skills. This hands-on opportunity further solidified my ability to contribute effectively to web development projects.

PHONEIXSOFTECH Pvt.limited

- Completed a Django framework internship in Python, gaining hands-on experience in web development and backend integration. Developed scalable web applications, collaborated with a team, and acquired skills in database management, API development, and user authentication.

WORKSHOP

- Cyber security (PSNACET)
- Build club (PSNACET)
